

A gama económica Ubiquiti airFiber incorpora os avanços tecnológicos mais recentes e oferece um throughput implacável em longas distâncias . Os dispositivos airFiber de formato compacto , muito eficiente , disponibilizam uma performance wireless gigabit + espantosa e baixa latência . Com um sistema de antena reflector de alto ganho , 2x2 MIMO dual. A airFiber ajuda a extender os orçamento de link eliminando as perdas extra de RF .Estas funcionalidades muito potentes fazem da gama airFiber da Ubiquiti a escolha ideal para backhaul de operadora , uso empresarial de edifício a edifício ou para aplicações de segurança pública.

### UBIQUITI AIRFIBER 24 GHZ POINT-TO-POINT RADIO SINGLE UNIT

Código : AF-24      oFrequency - 24 GHz  
oThroughput - 1.4+ Gbps      o Range - 13+ km

### UBIQUITI AIRFIBER 24 GHZ POINT-TO-POINT RADIO COMPLETE LINK

Código : AF-24-LINK o      Frequency - 24 GHz  
oThroughput - 1.4+ Gbps      oRange - 13+ km

### UBIQUITI AIRFIBER AF24HD 24 GHZ POINT-TO-POINT RADIO SINGLE UNIT

Código: AF-24HD      2 Gbps Real Data Throughput  
o 20+ km Extreme Range      24GHz worldwide license-free band

### UBIQUITI AIRFIBER AF24HD 24 GHZ POINT-TO-POINT RADIO COMPLETE LINK

Código : : AF-24HD-link      24GHz worldwide license-free band  
2 Gbps Real Data Throughput      o20+ km Extreme Range

### UBIQUITI AIRFIBER 5U 5.9GHZ E 6GHZ, 1GBPS+, FDD, 100KM+ POINT TO POINT RADIO - SINGLE UNIT

Código :AF-5U      o1Gbps+ throughput  
o50MHz channel      oFull Duplex

### UBIQUITI AIRFIBER 5U 5.9GHZ AND 6GHZ, 1GBPS+, FDD, 100KM+ POINT TO POINT RADIO - COMPLETE LINK

Código : AF-5U-LINKo      1Gbps+ throughput  
o50MHz channel      oFull Duplex

### UBIQUITI AIRFIBER 5 5GHZ, 1GBPS+, FDD, 100KM+ POINT TO POINT RADIO - SINGLE

Código : AF-5      o1Gbps+ throughput  
o50MHz channel      oFull Duplex

### UBIQUITI AIRFIBER 5 5GHZ, 1GBPS+, FDD, 100KM+ POINT TO POINT RADIO - RADIO - COMPLETE LINK

Código :: AF-5-LINK      o1Gbps+ throughput  
o50MHz channelo      o100Km+ Range

### UBIQUITI AIRFIBER AF-2X 2.4 GHZ BACKHAUL RADIO - SINGLE UNIT

Código : AF-2X      o500 + Mbps Throughput  
o2x2 MIMO connectorised      o2.4 GHz Frequency

### UBIQUITI AIRFIBER AF-2X 2.4 GHZ BACKHAUL RADIO - COMPLETE LINK

Código : AF-2X Link                      o500 + Mbps Throughput  
o2x2 MIMO connectorised              o2.4 GHz Frequency

### UBIQUITI AIRFIBER AF-3X 3 GHZ BACKHAUL RADIO - SINGLE UNIT

Código Code: AF-3X                      500 + Mbps Throughput  
3 GHz Frequency                      o2x2 MIMO connectorised

### UBIQUITI AIRFIBER AF-3X 3 GHZ BACKHAUL RADIO - COMPLETE LINK

Código Code: Código Code: AF-3X                      500 + Mbps Throughput  
3 GHz Frequency                      o2x2 MIMO connectorised

### UBIQUITI AIRFIBER AF-4X 4.9 GHZ BACKHAUL RADIO - SINGLE UNIT

Código AF-4X                      o500 + Mbps Throughput  
o 200+ km Range                      oOptimal Use of 4.9 GHz Radio Band

### UBIQUITI AIRFIBER AF-4X 4.9 GHZ BACKHAUL RADIO - COMPLETE LINK

Código :AF-4X-LINK                      o500+ Mbps Real Throughput  
o200+ km Range o                      oOptimal Use of 4.9 GHz Radio Band

### UBIQUITI AIRFIBER AF-5XHD RADIO SYSTEM

Código :AF-5XHD                      oConfigurable GPS Synchronisation  
Split TX and RX Frequency              oSplit TX and RX Channel Bandwidth

### UBIQUITI AIRFIBER 60 GHZ/5 GHZ RADIO SYSTEM (AF60)

Código AF60                      o60 GHz radio with 5 GHz radio backup  
Low-interference 60 Ghz spectrum              oLong range, up to 2 km

### UBIQUITI AIRFIBER X ANTENNA 11 GHZ

Código :: AF-11G35                      oPowerfull Performance  
oSeamless Integration o                      o35 dBi

### UBIQUITI AIRFIBER 5X ANTENNA AF-5G23-S45

Código :: AF-5G23-S45                      5 GHz Frequency  
378-mm diameter size                      o23 dBi Gain

### UBIQUITI AIRFIBER 5X ANTENNA AF-5G30-S45

Código :: : AF-5G30-S45-PAIR                      5 GHz Frequency  
30 dBi Gain                      o650mm diameter size

### UBIQUITI AIRFIBER 5X ANTENNA AF-5G34-S45

Código :: : AF-5G34-S45-PAIR                      5 GHz Frequency  
30 dBi Gain                      o1050 mm diameter size

### UBIQUITI AIRFIBER NXN SCALABLE MIMO MULTIPLEXER MPX4

Código :: :AF-MPx4                      o4x4 MIMO Backhaul Technology  
Aggregate Throughput up to 1+ Gbps              oUp to 1 Redundant Link

### UBIQUITI AIRFIBER NXN SCALABLE MIMO MULTIPLEXER MPX8 (AF-MPX8)

Código :: :AF-MPx8                      o8x8 MIMO Backhaul Technology  
oMultiplex up to (4) airFiber 5X radios oAggregate Throughput up to 2+ Gbps

### UBIQUITI AIRFIBER LOW-BAND DUPLEXER (AF-11-DUP-L))

Código :: :AF-11-DUP-L                      o

### UBIQUITI AIRFIBER 5GHZ ROCKETDISH TO AIRFIBER ANTENNA CONVERSION

Código :: :AF-5G-OMT-S45                      o8x8 MIMO Backhaul Technology  
oMultiplex up to (4) airFiber 5X radios oAggregate Throughput up to 2+ Gbps
